

Dessian has over 30 years of experience in the PVCu industry, specialising in the fabrication of windows, doors and conservatories.

Dessian manufactures REHAU Total70 (70mm) chamfered or fully sculptured and S706 Tritec (60mm) chamfered PVCu window and door systems including:

- Window Casements
- Tilt & Turn Windows
- Fully Reversible Windows
- Conservatory Windows
- Arches and Angles
- Residential Doors
- French Doors
- Patio Doors
- Bi-Folding Doors
- Stable Doors
- Accessories

As one of the largest fabricators in the United Kingdom and Ireland, we have over 100 employees. Our staff turnover is extremely low, meaning our team is highly experienced with excellent product knowledge. We operate from a state-of-the-art 70,000 sq. foot factory in Belfast and we also have a factory in Cumbernauld, Scotland.

Our customers cover the entire range, including Retail Window Companies, Trade Installers, House Builders, Municipal Education & Health Authorities, Fire Authorities, HMP and Housing Associations across Ireland and Great Britain.

Over the years, we have achieved a number of accreditations to ensure that all of our products are manufactured to the highest possible level. These include ISO and Kitemark features. We can also supply a range of Secured by Design products, a widely recognised police initiative which promotes the use of security standards on windows and doors to prevent crime on homes and commercial premises.

All of our windows will meet a Window Energy Rating (WER) of either A, B or C depending on build specification. Where specified a U-Value of 0.8W/m²K can be achieved with triple glazed units.
